Mines and Minerals of Arizona

THE PLOMOSA DISTRICT

A Rich Mineral Region in Process of Development.

A correspondent writes as follows to the Yuma Sun from Quartzite camp: That portion of Plomosa mining district from Middlecamp south to and including Cunningham Pass is showing great activity.

John Brown is getting some good gold ore from his Blue Bend and adjoining claims.

King and Apudora are working their claims; one claim has a 115-foot shaft and has been crosstied forty feet. They are sinking fifty feet on an adjoining claim.

Judge Bradshaw is busy on his Lena D claim. This is a gold proposition and a good one.

George Wilson is in charge of the interest of O. A. Pease. He is working four men. Upon the arrival of Mr. Pease work will be pushed.

Alfred Skeels has given contracts for work to be done on the Prosperity group.

One mile south of Middle Camp are the Bee Hive and Mohave properties. The Bee Hive has been patented. These properties cover the Choyas and Rinesa placers where a number of dry washers are making wages in spite of the fact that they have to use powder to break the ground.

John Agard, owner of the Expansion mine, came in town a few days ago, accompanied by Mr. Dorris and Mr. Panly of Phoenix, who examined the property.

Cronman and Turner have temporarily shut down work on their group of claims. They made a shipment of about two tons of ore a short time ago and have another shipment nearly ready.

The Latta A group of claims are showing up some very rich ore. There are four full claims in the group which are owned by C. D. Chamberlain of Quartzite. Note Allison and F. H. Gorman of Jerome. Mr. Chamberlain has been drilling away steadily since last September; a week ago he struck an exceedingly rich pocket of ore on the Syndicate No. 2. The ore requires no sorting and nearly every piece shows free gold. Mr. Chamberlain owns three adjoining claims individually with his partners he holds another excellent prospect in Cunningham Pass on the same ledge as the Copper Bottom group, owned by Butler and Moore. There is a deal on for the purchase of this group which has a great deal of work done. Considerable ore has been shipped, one shipment of 2,400 pounds returning \$15.50. There are five claims in this group.

G. F. Ingersoll, owner of the Frenchman, has a good claim with a forty-foot shaft.

On the east side of the valley work is also booming. The facts are this is a good mineral country; the people who have interests here know it and are developing and working to put properties on a paying basis.

GOOD CLAIMS IN CATALINAS.

E. O. Stratton of the water department has returned from a visit to his mining claims on the east slope of the Catalina mountains. These claims are located at the head of Alder canyon, says the Tucson Citizen, just over the ridge from Camp Condon. Mr. Stratton brought a number of ore samples from the claims and, if his prospects carry any quantity of ore similar to the samples the claims are very rich.

These claims were first located a long time ago, when the old Apache smelter, which is in the same canyon, was running full blast. Mr. Stratton has located six claims on the main ledge, which is the same lead of ore on which the Catalina mine of F. M. Hartman and the Condon mines are located. He has completed about three hundred feet of development work and in two of the shafts the ore shows up very well. This ore is a high grade sulphide and some of it will run over fifty per cent copper. Mr. Stratton prospecting this country a long time ago when he owned the late Ocean ranch and he picked out this property as the best in the Catalina mountains.

MINING NOTES.

Ed Block had a successful trip to San Francisco on business connected with the Merchants' Mining company. He says the condition of the company is excellent at present and the mine is looking better than ever. He expects to leave tomorrow or next day for New York on a business trip for the company and expects to be able to report soon to put up a mill for working the ore. The development of the mine at present

WE organize, finance and float all kinds of legitimate enterprises.
WE advertise stock companies, mining, land, and find and interest capital in these undertakings.
WE underwrite and guarantee dividends on all first-class stocks.
WE have a legal and an advisory department that it may be to your interest and benefit to consult.
WE are in the market for first-class mining properties, gold, silver or copper.

SUBMIT YOUR PROPOSITION.

In general, Mr. Osborne says, he is fully convinced that Arizona is a wonderful region and while it is already one of the important producing sections, the real development has hardly begun. He was not seeking investment, evidently, else he could have found plenty of opportunity. He was on an outing trip and was taking advantage of it to acquaint himself with Arizona methods.

Regarding Phoenix and this valley he said he was more than pleased with what he had seen. The city was equal to all representations previously made

ent and the amount of ore in sight will justify the erection of a mill.—Journal-Miner.

Jack Arnold is in from his mining camp at Placitas. He says three men of his got down with pneumonia. There was no doctor in reach and he had no medicine but kerosene. With that he brought them through all right.—Prescott Courier.

Mr. Lester visited Dud Clark's claims yesterday and speaks highly of them. These claims are located on the north side of Jackass Flat, nine miles from Prescott. There is an eighteen-inch vein of ore which shows up well in free gold; the surface ore carries \$14 per ton gold on top of the ground and a goodly percentage of copper.—Courier.

Last Saturday Messrs. Friedman, Vroom and Hemmington took a trip out to a claim recently located by them near Copper basin. While looking at the new prospect and getting out some large pieces to bring to town for assay, says the Prescott Courier, a small hole who was with the party amused himself by breaking rock on a small hill near by. Presently the small boy returned to where the men were working, bringing with him a piece of rock which, upon examination, proved to be high grade copper ore. The men went to the place where the boy had been breaking rock and found that the piece of copper ore had been broken from a piece of copper float weighing about thirty pounds. The copper vein was not found, but is thought to be very close to the spot where the float was discovered. Ore from the original find is galena and black sulphide, and is thought to be rich in silver. A good sized streak of this ore is being opened up.

A TWO WEEKS TOUR

A Well-Known Californian's Impressions of Arizona.

H. Z. Osborne, of Los Angeles, and his son Clarence, spent yesterday in the city, leaving on the evening train for home. Mr. Osborne is United States marshal for the southern district of California, and is just finishing a two weeks' tour of Arizona, taking during a leave of absence from his official duty. He has lived in Los Angeles for the last twenty-three years, thirteen of which were spent in the management of the Los Angeles Express, which he owned till about four years ago. He was also the boom days, being very successful, a pioneer editor in Bodie, California, during the boom days, being very successful there. He has crossed Arizona several times on the two through lines of railroad, but that sort of travelilly acquaints one with the real resources of Arizona, as these roads cross the worst part of the territory. Being interested in gold mining in California and having heard a great deal about Arizona, Mr. Osborne decided to give the territory a good fair looking over. He said yesterday he was glad he had done so, and from his expressions of satisfaction it is to be depended upon that the territory has one more friend who will say good things about it and speak from personal observation.

Mr. Osborne something over a year ago purchased the Dore and Gold mines, a little prospect in Trinity county, Cal., for \$5,000, and organized a company to work it. Last season, the first after he owned it, he worked through the little sampler at the mine 756 tons of ore that returned the company \$25,209.32, about seven times what he paid for the mine. It is little wonder that he is interested in gold mining with that sort of showing. However, it was not all profit, for the mine is eighty miles from the railroad and the snow in that region is so deep that nothing in the way of milling can be done in the winter time. Mr. Osborne still calls it a prospect, for only two hundred feet of work have been done about a month ago, but it is a prospect worth looking over, and he owns a Huntington mill and concentrator ready for this season's work.

The mine is located in one of the prettiest regions in the world, and there is an abundance of wood and water on the property which largely counterbalances the long distance to the railroad. Some samples of the ore from the rich streak in the mine are the prettiest things ever seen of that nature, being pure white quartz with cubes of galena and nuggets of gold scattered all through it. They are strictly specimens, of course, for ore of that character would be worth two dollars a pound.

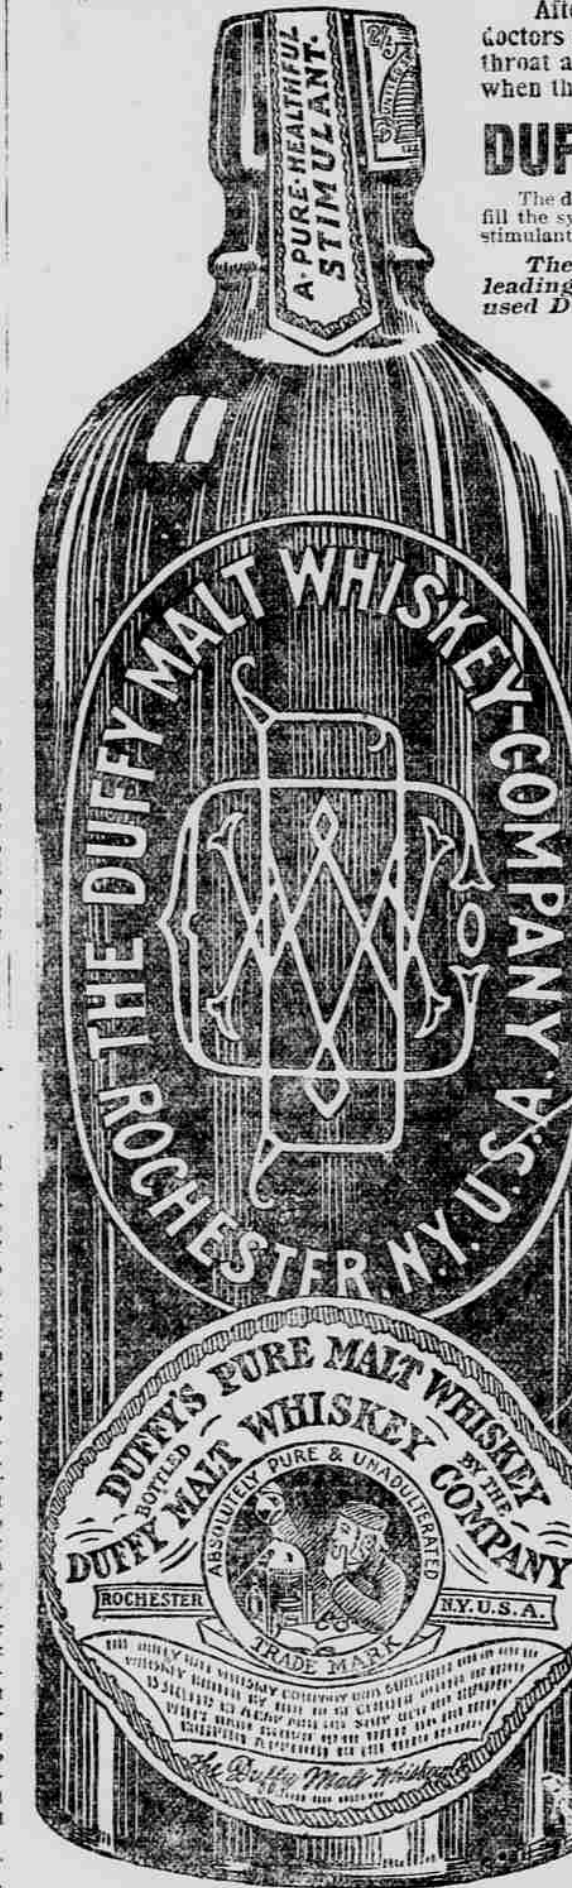

Arriving in Arizona the first thing he did was to get a good look at the strike on property belonging to R. R. Richardson and Wm. Powelson. He says the whole country thereabout is staked out and certainly looks promising. There is little work done on the new strike and the size of the ore bodies is yet problematical though the values shown are certainly of remarkable richness. He also visited the Hardshell and Hermosa districts and adjacent country, the mines all looking well. He next went to Clifton, more for the satisfaction of seeing a big copper camp than anything else. He was greatly impressed with all that he saw there and convinced that it is a wonderful region for the red metal.

He passed through Phoenix several days ago for Wickenburg, Otero, Congress, Prescott and other mining centers and really has nothing but good to say of any of them. He inspected the Congress plant and noted the methods of gold extraction and also took an inside view of the mine. Returning to Wickenburg he visited and went through the Oro Grande mine. While he took no samples or estimates of the value of the ore he says it looks good and there is an immense quantity of it blocked out.

In general, Mr. Osborne says, he is fully convinced that Arizona is a wonderful region and while it is already one of the important producing sections, the real development has hardly begun. He was not seeking investment, evidently, else he could have found plenty of opportunity. He was on an outing trip and was taking advantage of it to acquaint himself with Arizona methods.

Regarding Phoenix and this valley he said he was more than pleased with what he had seen. The city was equal to all representations previously made

7,000 Doctors and 2,000 Hospitals

After years of scientific research and thorough tests, over 7,000 doctors and 2,000 hospitals use and endorse for all diseases of the throat and lungs, and prescribe exclusively as a tonic and stimulant when the system is weak and run down from disease or overwork

DUFFY'S PURE MALT WHISKY

The doctors and hospitals as well as the people have learned that it does not pay to fill the system with drugs. They realize what the system wants is a tonic and stimulant to aid the circulation and lend artificial force to throw off the disease germs.

The following letters are samples of the many received from leading doctors and prominent hospitals who have successfully used DUFFY'S PURE MALT WHISKY:

After Operation.

Myself and family never knew the value of Duffy's Malt Whiskey until recently, when my wife was stricken with appendicitis, and operated on successfully by Prof. Gray, of Christ Hospital, Jersey City. Immediately after the operation vomiting set in and for three days the doctors and nurses used every known means for checking same, but not until Duffy's Malt Whiskey was administered was the vomiting stopped. I can therefore, cheerfully recommend Duffy's Malt Whiskey to all persons suffering from weak or disordered stomach. Very truly yours, FRANK C. FRITZ, 3309 5th Ave., Pittsburg, Pa., Aug. 16, 1901.

Cured Consumption.

My experience with Duffy's Pure Malt Whiskey has been very satisfactory. In consumption and all conditions of the system requiring a stimulant no better article can be employed. I have a patient now who was taking another whiskey, and while doing so continued to sink. I changed the stimulant to Duffy's Pure Malt Whiskey, and at once a change for the better took place. JEAN E. BROOKS, M.D., 161 Vestal avenue, Binghamton, N. Y., Sept. 21, 1901.

Retained by Weak Stomach.

PAWTUCKET EMERGENCY HOSPITAL. We have used Duffy's Pure Malt Whiskey and are now using it at this hospital. We consider it an excellent preparation. Used with ice, it will stay on an irritable stomach. It is the ideal stimulant for the invalid where one of this character is called for. FRANCIS M. HARRINGTON, Surgeon-in-Chief, JOHN W. GORMAN, Resident Physician, Pawtucket, R. I., April 13, 1901.

103 Years Old.

Duffy Malt Whiskey Co., Rochester, N. Y. Jan. 1, 1902. Gentlemen:—It gives me great pleasure to write you on the birth of the new year to thank you for the benefit your whiskey has done me. I am 103 years old, can see, hear and sleep perfectly. I shave, take long walks every day. I have used whiskey as a medicine since I was 21 years old, and using whiskey 82 years. I have learned to appreciate a good, healthful stimulant like yours. I have used it constantly for years, and can find nothing to take its place, neither food nor drink. It tones my system, stimulates my blood, as well as keeping me proof from coughs and colds. I hope with God's will and the aid of your whiskey to see much more of this wonderful creation. Yours very respectfully, JOSEPH M'GRATH, 414 East 82d St., New York City.

DUFFY'S PURE MALT WHISKY is the true elixir of life. There is no other tonic and stimulant that will prolong life and keep the system free from disease like DUFFY'S PURE MALT WHISKY. Every old man and woman should take DUFFY'S PURE MALT WHISKY regularly, three times a day in a glass of milk or water. They will need no other medicine.

DUFFY'S PURE MALT WHISKY

CURES Consumption, General Debility, La Grippe, Colds, Bronchitis, Low Fever, Dyspepsia, Depression and Weakness from whatever causes.

It builds up and nourishes the body, it invigorates the brain, tones up the heart and prolongs life.

A leading New York doctor said, "Duffy's Pure Malt Whiskey is a form of food already digested."

CAUTION—Our patrons are cautioned against so-called Duffy's Malt Whiskey offered for sale in bulk or in flasks and packages other than our bottles. Duffy's Pure Malt Whiskey is sold in sealed bottles only. Offered in any other form it is not genuine.

There is none "just as good" as Duffy's. The dealer who says so is thinking of his profits only. Ask for Duffy's; insist on getting it. It is the only whiskey recognized by the government as a medicine.

TWO of our patent game counters for whist, euchre, etc. They are unique and useful. Inclose 4 cents in stamps to cover postage. FREE ADVICE—If you are sick and run down write our doctor for high health, strength and vitality. Medical booklet, containing symptoms, treatment and testimonials, sent free. All correspondence is strictly confidential, and no testimonials are used without permission. All drugs and groceries direct, \$1.00 a bottle. DUFFY MALT WHISKY CO., ROCHESTER, N. Y.

GONE AFTER CURTIS

Everything Is Presumed to Be in Readiness Now.

Sheriff John Munds, of Prescott, was in town yesterday on his way to Cananea after William Curtis, alias Bill Wesley, wanted in Yavapai county for the robbery of a stage out of Hot Springs Junction and for holding up a store at Briggs. Curtis, after a hunt lasting more than a year, was located about a month ago at Cananea, where he was driving a team for the Green Consolidated company. Sheriff Munds procured the necessary requisition papers and went after him. He encountered unexpected delays in the preparation of the extradition papers and after waiting in Mexico two weeks was told that it would yet be a few days before the papers were completed. He decided not to wait any longer, having been assured that the extradition of Curtis was sure but would be a matter of time. The officers told him that they would let him know when everything was ready.

Curtis has always been willing to waive extradition, but the Mexican law does not contemplate any such thing and contains no provision for it. The jail where Curtis has been kept is not a palace and the food he has had to eat would never in the world give him the gout. There is allowed to each prisoner the insignificant sum of 25 cents a day, Mexican money, which is worth all as much as American money. While the sheriff was there he paid for Curtis' meals out of his own pocket and food. After he left Curtis' stomach must have sustained a severe shock when the bill of fare was reduced to beans, the only article that one could buy enough of at a shilling a day, to sustain life.

MISCELLANEOUS "HAIR TONICS."

Most Hair Preparations Are Merely Scalp Irritants of No Value.

Most hair preparations are merely scalp irritants, untempered hair tonics. When hair is brittle, lusterless and begins to fall out, the dandruff germ is getting in its deadly work at the root, sapping the vitality. Since science discovered that dandruff is a germ disease there has been only one preparation put on the market that will actually destroy the dandruff germ, and that is Newb's Herpicide. It attacks itching instantly, destroys the germ, and then falling hair stops, and hair grows luxuriantly. Ask your druggist for Herpicide. It attacks itching instantly; makes hair grow.

Matters of Record

The following instruments reported by the Phoenix Title Guaranty and Abstract company were filed for record in the county recorder's office yesterday: A. E. Blinton and wife to J. W. Evans, deed to lots 14 and 15, block 3, Segura addition; consideration, \$638.97. E. M. Dorris and wife to C. D. Dorris, deed to undivided half of lot 8, block 75, Phoenix; consideration, \$700.

It troubled by a weak digestion, loss of appetite, or constipation, try a few doses of Chamberlain's Stomach and Liver Tablets. Every box warranted. For sale by Elvey & Hulst.

Wage-Year actor friend is rather eccentric, isn't he? Wage-Eccentric is no name for it. He actually admits that there are other actors as good as he is.—Philadelphia Record.

If troubled with rheumatism, give Chamberlain's Pain-Balm a trial. It will not cost you a cent if it does no good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frost-bites, quins, pains in the side and chest, rheumatism and other swellings are quickly cured by applying it. Every bottle warranted. Price 25c and 50c. For sale by Elvey & Hulst.

Ladies Wreathed the Young Violinist's Horses With White Roses.

Jon Kubicki made his farewell appearance Monday night in the Academy of Music, Brooklyn, before sailing for Europe. The house was filled to the doors.

A. M. Evans of the performance women about down and wreaths crowded about the stage door, and the young violinist needed the aid of two stalwart

patrolmen to reach his carriage. His coach was filled high with floral offerings, and as he drove off, kissing his hand to the crowd, one young woman hung a big wreath of white roses around the neck of one of the horses.

Although Kossuth was the star of the evening, he divided honors with Miss Buell of Manhattan, a talented soprano, who sang "Connais Tu le Pays?" by Ambrose Thomas, and "Pastorale" by Bizet. She was recalled several times.—New York World.

SOROSIS AND MARY E. WILKINS.

For the first time in her career Sorosis invited a guest to her birthday party, only to be ignored.

Mary E. Wilkins, the novelist, whose name headed the list of distinguished guests expected at the anniversary breakfast yesterday at the Waldorf-Astoria, was conspicuous by her absence and sent no "regrets." The invitation was addressed to "Mrs. Freeman," and whether the wife title had absorbed the New England woman's celebrity and carried the massive into the hands of a possibly obscure namesake was the tormenting uncertainty that poisoned the opening course.

It was Sorosis's thirty-fourth birthday. There were 200 guests at the breakfast.

Marguerite Merington, who was the literary genius of the feast, in a crushed pink frock and big black hat, announced that she would recite a poem called "Arms and the Man" because "a woman was included in that situation."—New York World.

FOR OVER SIXTY YEARS

MRS. WINSLOW'S SOOTHING SYRUP has been used for children teething. It soothes the child, softens the gums, allays all pain, cures colic, and is the best remedy for Diarrhoea. Twenty-five cents a bottle.

A LORD SALISBURY HAIR CUT.

Various anecdotes concerning the prime minister are afloat just now. Some years ago, it is related, the prime minister went into a small barber shop in Portsmouth to get his hair cut. The tonsorial artist had evidently recognized his distinguished customer, for when his lordship passed his shop a day or two after the event, he was not a little surprised and amazed to find a placard in the window bearing the following notice: "Hair cut, 3d, with the same scissors as I cut Lord Salisbury's hair, 6d."

Methuselah was fortunate enough to have lived before patent medicines were invented.

MOTHER GRAY'S SWEET POWDERS

For children. Mother Gray, for years a nurse in the Children's Home in New York, treated children successfully with a remedy, now prepared and placed in the drug stores, called Mother Gray's Sweet Powders for Children. They are harmless as milk, pleasant to take and never fail. A certain cure for feverishness, constipation, headache, teething and stomach disorders and remove worms. At all druggists, 25c. Do not accept any substitute. Sample sent FREE. Address Allen S. Clumsted, Le Roy, N. Y.
